I would like to personally thank you for watching the Origins television program. This show was special, near to the heart of my parents, Russ and Norma Bixler.

I trust that the information in this presentation will be helpful in your study of creation science. Thank you for your prayerful and financial support of Origins… you’re making the television production of this program possible!

Also available now a legacy website dedicated to my parents at russandnormabixler.com.

Definition of Evolution

- From nothing to everything by chance, time, natural law, and natural selection (survival of the fittest)
  - Natural law (gravity)? Only consistency

- From the goo to you by way of the zoo
  - All life evolves by an accumulation of billions of mistakes.
99.9% of all mutations near neutral or deleterious
- Each generation has from 50 to 150 new mutations.
- Eventually we end up with genetic meltdown.
- Evolution true, only going the wrong way!

CENT. DE LA MUERTE DE KARL MARX (1883)
Marx historian Isaiah Berlin claimed that no thinker “has had so direct, deliberate and powerful an influence on mankind as Karl Marx” (1959, p. 1).

*The Origin* impressed Marx “perhaps as deeply as any book he read in his maturity” (Colp, 1972, p. 332).
Marx Anti-Christian

• After Marx became a Darwinist, he detested any “belief in supernatural causes” (Berlin, 1959, p. 30).
  – openly denounced all religion as “the opiate of the people,”

• In nearly every nation where the Communists took power, the churches were either abolished, or neutralized.
• Before becoming Darwinists, Marx, Stalin, Hitler and Mao Tse-tung all accepted the Christian teaching that all humans were brothers, all descendants of Adam and Eve (Medvedev, 1989).

• If they continued to embrace Christian creationism, they would not have become leaders of anti-Christian totalitarian movements.
Marx’s coworker and coauthor, Engels, was raised by a strict Bible-believing father. Engels started to seriously question his faith when he read liberal German theologians, as Bruno Bauer, at the University of Berlin.

A major factor that influenced these liberal theologians was Darwinism.
Result?

• Also significantly influenced by Darwinism.
  – raised by devout Bible-believing parents (Miller et al., 1963, p. 33).

• Around 1892, he discovered Darwin’s and Marx’s writings, and his life
  – (and the world) changed forever (Miller, et al., 1963, p. 36).
• Lenin was “fascinated with the ideas of Charles Darwin”
• Marxism & Darwinism soon became his new religion (Service, 2000).
Stalin had an estimated 60 million humans murdered.

Second Soviet dictator, Joseph Stalin (1879-1953)

(Antonov-Ovseyenko, 1981)
While a seminary student, Stalin read Darwin.

became an “avid Darwinian,” abandoned his faith in God, and “began to tell his fellow seminarians that people were descended from apes, not from Adam”

(Koster, 1989, p. 176).

of the lower races, and therefore of a past and lower state of civilisation.

The chief distinction in the intellectual powers of the two sexes is shewn by man’s attaining to a higher eminence, in whatever he takes up, than can woman—whether requiring deep thought, reason, or imagination, or merely the use of the senses and hands. If two lists were made of the most eminent men and women in poetry, painting, sculpture, music (inclusive both of composition and performance), history, science, and philosophy, with half-a-dozen names under each subject, the two lists would not bear comparison. We may also infer, from the law of the deviation from averages, so well illustrated by Mr. Galton, in his work on ‘Hereditary Genius,’ that if men are capable of a decided pre-eminence over women in many subjects, the average of mental power in man must be above that of woman.
