Beauty Is David N. Menton, Ph.D

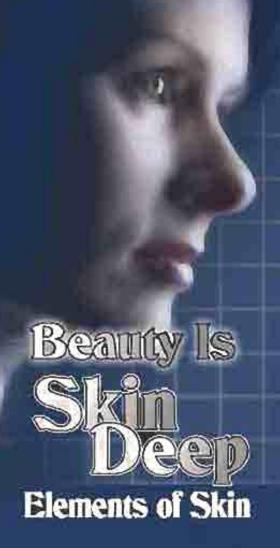

I would like to personally thank you for watching the Origins program. Origins was a special program, near to the heart of my late husband, Russell Bixler.

I trust that the information in this presentation will be helpful in your study of creation science. Thank you for your prayerful and financial support of Origins... you're making the television production of this program possible.

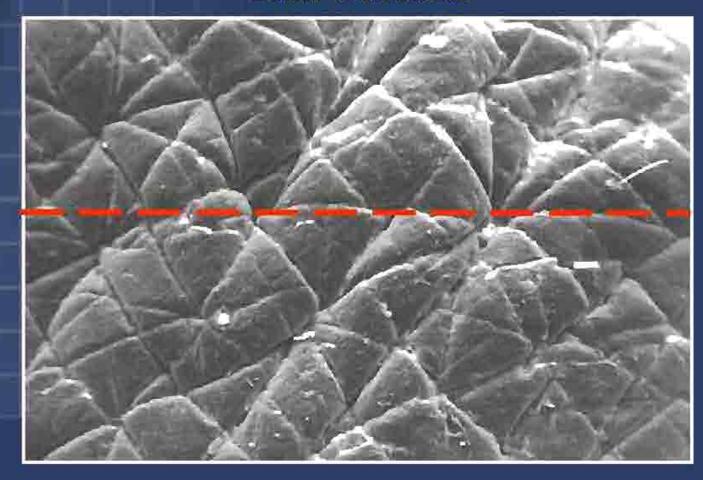

-Norma Bixler

We Are Woven By God

"For You formed my inward parts; You wove me in my mother's womb.

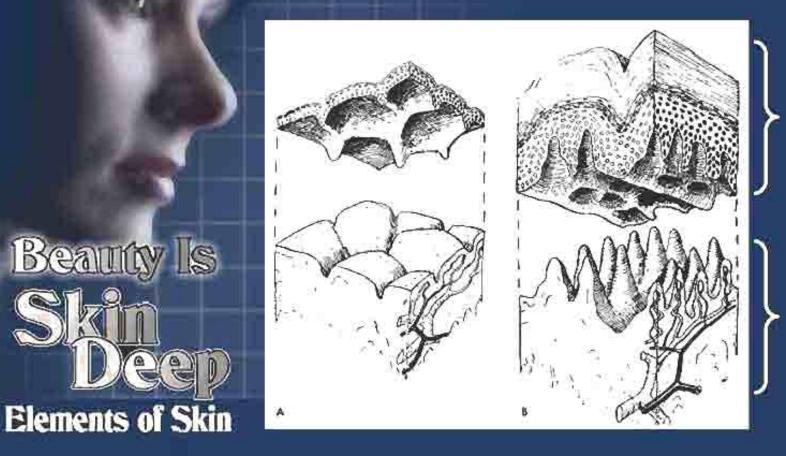

I will give thanks to You, for I am fearfully and wonderfully made; Wonderful are Your works, And my soul knows it very well."

Psalm 139:13-14 NASV

Overlapping Corneocytes

Epidermal Cell Stacking

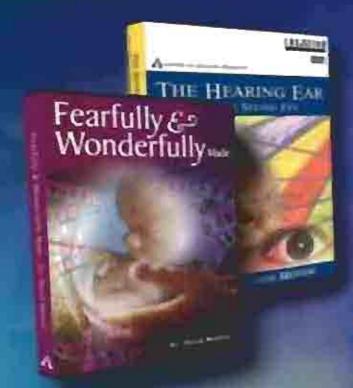

- (A) Cross-section of the swollen epidermis
- (B) Looking through the epidermis
- (C) Model of epidermal cell close packing

The 206 bones in the human skeletal system are an engineering marvel. It is a rigid support for the body's organs & tissues, serving as a shield for the brain, lungs, heart, and spinal chord.

Engineers are developing lightweight structural materials, but have yet to devise a substance that grows constantly, lubricates itself, requires no shutdown time, and repairs itself routinely.

Is man's framework a product of random chance processes or the creation of a grand designer?
